SCIENCE ENCOUNTERS offers children a creative and supportive environment for exploring science. Children with a keen interest in science can now develop those interests while supplementing the classroom curriculum. Educational studies indicate that one of the greatest challenges facing us today is significantly improve the science skills of our students. **SCIENCE ENCOUNTERS** classes are designed to help meet this challenge. Enrollment is limited to 15 students to ensure that each child has hands-on experiences during every class hour.

MOTION COMMOTION TUESDAYS

**Grades K-2
3:15 - 4:15pm**

This class will explore the many ways we can make things move. How many marbles does it take to move something across the room? Which ramps are best for matchbox cars? Can you make a course for dominoes, so they will all fall down in a line? What type of ball has the most energy? Questions like these will be used for the basis of many experiments in this fast moving class on motion. Students can expect to design and build launches, experiment with pulleys and pendulum systems, design and create balloon jets and more! The laws of Sir Isaac Newton will be taught as the students conduct these thought provoking experiments.

LOCATION: Manor Woods Elementary School
GRADES: K-2
SCHEDULE: **Tuesdays: 1/24 - 3/13**
TIME: **3:15 - 4:15 pm**
COST: \$105.00 per child for eight classes (all materials included)
REGISTRATION DUE BY: JANUARY 13, 2012
QUESTIONS? Please call the Science Encounters Office at 410-736-2331

PLEASE MAKE CHECKS PAYABLE TO SCIENCE ENCOUNTERS AND MAIL TO THE OFFICE ADDRESS ABOVE BY JANUARY 13, 2012 CREDIT CARDS (Visa/MC/AMEX/Discover) ARE ACCEPTED ALSO. PLEASE REGISTER BY INTERNET AT WEBSITE LISTED ABOVE OR CALL THE OFFICE TO PAY BY CREDIT CARD. AFTER JANUARY 13, 2012, PLEASE CALL THE SCIENCE ENCOUNTERS OFFICE TO CHECK ON AVAILABILITY. You will get a confirmation by email prior to the first day of class to confirm your registration.
